## **Boarding at Chriscon Farms**

Chriscon Farms offers both indoor and outdoor accommodations for your horse. We also offer daily rates for horse transporters who are looking for a resting place between Montreal and Toronto.

### **Premier Care**

Our facility deploys equine welfare, biosecurity and infectious disease protocols to insure the wellbeing of all animals on the property. Horses on property are required to follow our deworming schedule and to be current with all major vaccinations.

All staff are certified in Emergency Equine First Aid and follow the National Farm Animal Care Council's code of practice for the care, handling and operation of an equine facility.

We also deploy a state of the art software that manages all operations on the facility. This insures the quality control of all equine activities from care, billing, health management, scheduling and more.
